

### **Position – Intern (IPS Team)**

Informatica is the only Enterprise Cloud Data Management leader that accelerates data-driven digital transformation. Informatica enables companies to unleash the power of data to become more agile, realize new growth opportunities, lead to new inventions resulting in intelligent market disruptions.

With over 10,000 customers worldwide, Informatica is the trusted leader in Enterprise Cloud Data Management. Your Opportunity: Imagine yourself working for the leading independent software provider focused on delivering transformative innovation for the future of all things data.

Organizations around the world rely on Informatica to realize their information potential and drive top business imperatives. As a University Graduate at Informatica, you will be exposed to innovative culture, challenging work and a fast moving, results oriented environment.

Informatica Professional Services(IPS), you will provide product expertise and data management knowledge to deliver the most architecturally efficient and cost-effective solution for our customer's data integration projects. The Consultant will work closely with the customer, other Informatica consultants and customer/partner resources, Sales, Global Customer Support and Product Management to ensure customer's success and satisfaction with our products and services and contribute to their long-term loyalty. The successful candidate will drive the Informatica Data Quality implementations. Working either independently, with or within a team, you will have the opportunity to work at the front end in a rapidly growing business. Our Ideal Candidate: You are a technology savvy IT professional who strives for excellence and is known as a trusted advisor to the customer. You possess superb communication and customer-relationship skills and are comfortable working both independently and collaboratively. You're advanced problem solving skills and Technical aptitudes allow you to adapt to new circumstances and learn quickly when facing new problems and challenges.

Applying your superior business acumen and resource management skills you meet deadlines and set the example for good work procedures.

In addition to the attributes mentioned, you'll also be able to: - Adapt to customer's work culture and establish an excellent working relationship with them - Demonstrate a strong desire to grow both technically and as a trusted advisor to the customer.

Your Responsibilities Deliver solutions per Velocity methodology:

1. Document and review requirements, technical specifications, and customer expectations
2. Design the solution.
3. Build the solution per specifications and customer expectations.
4. Execute test plan and document results; debug solution as required.
5. Document solution using Velocity templates.

Contribute to team solution implementation:

1. As a member of the team, apply technical skills to the solution.
2. Implement the solution based on project lead's guidance.
3. Communicate project status to project lead.

4. Ensure that features of the solution are correctly and consistently implemented.

On-going skills development:

1. Identify skill development needs and training plan.
2. Shadow experienced consultants on client sites to gain knowledge, skills and experience.
3. Contribute to Velocity Knowledge Base, weekly calls.
4. Identify and attend formal training classes.
5. Demonstrate self-sufficiency in problems solving and knowledge acquisition from resources throughout the company. Additional Information: Informatica offers a competitive compensation package that includes base salary, medical, tax benefits and more.

Our generous benefits vary depending on your geographic work location. It's an exciting time to work at Informatica. You can learn more about our company, our products and our services at [www.informatica.com](http://www.informatica.com). We are an Equal Opportunity Employer (EOE)
